JERSEY CENTRAL TROUBLES. Employes Expect to be Called Out Almost Any Hour.

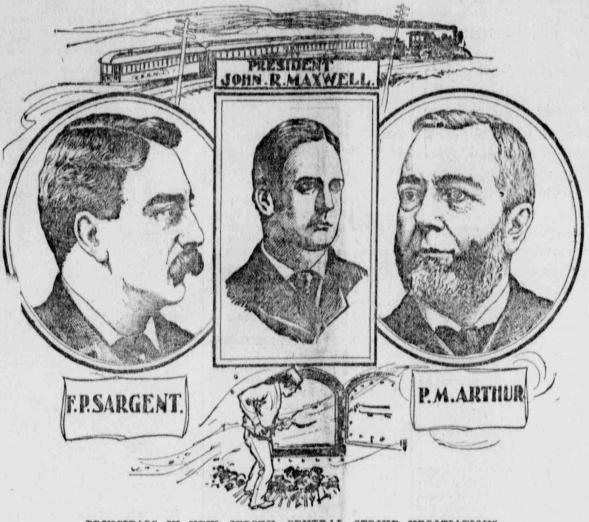

Wilkesbarre, Pa., April 10.-The employes of the Central Railroad of New Jersey, are still in a state of suspense. They say they expect to be called out almost any hour, although it is possible that they will not be called out at all. The local grievance committee at

Ashley, one of the terminal points of the road, say it is now up to the brotherhood chiefs to say whether or not there shall be a strike. Only the members of the local organization and Chairman Waite, of the general grievance committee, know positively the result of yesterday's poll on the strike question. While the employes are unusually reticent, enough can be gleaned from their conversation to justify the statement that they are only waiting for the brotherhood leaders to say quit

It is believed that the Jersey Central officials are fortifying themselves against a tle-up, as many men who are known by the employes here to be railroaders, reached this city late last night. Nearly all of them were members of the brotherhood at the time of the trouble on the Lehigh valley.

There is a strong probability that the conference between the employes and officials of the Central Railroad of New Jersey, abandoned at the time of the fruitless intervention of the railway brotherhood chieftains, may be resumed, and it is believed that if the disputants get together in friendly spirit the possibility of a strike on the line will become very remote. Some of the more conservative element among the employes have declared openly that they will not vote on the strike proposition until there has been another conference with the officials.

Speaking for the company, in an-

"Yes, we are most certainly prepared to meet our men if they care to confer with us. I have been in-formed that the men will name a conference committee, but I am not in possession of any direct information on the subject either through the men or through my position with the rail-road. If they come forward they will find us ready to treat fairly and openly with them."

There has been some speculation as a sympathetic strike that might come from a walk-out on the Central, but it has not created an apprehensive feeling among the officials of the lines that would be affected. Outside railly men doubt that the Central em. pioses will go out.

GARNETT RIPLEY JURY.

TEN THOUSAND MARKS REWARD.

North German Lloyd Co. Offers it for Return of Gold.

WAS STOLEN FROM STEAMER

How the Theft Was Accomplished is Not Known-Was Taken While at Sea. A to

Bremen Haven, April 10.-It is officially announced that two bars of gold were stolen during the voyage of the North German Lloyd steamer, Kaiser Wilhelm der Grosse, which left New York, April 2, and arrived at Cherbourg April 9. The company has offered a reward of 10,000 marks for their restitution or for the discovery of the thieves.

NO CLUES FORTHCOMING. London, April 10.-The offer of a reward for the return of the gold stolen from the Kaiser Wilhelm der Grosse or for the discovery of the thieves appears to effectually dispose of the theory first advanced, that the bars were stolen previous to having been put on board the steamer. No clues, however, seem to be forthcoming regarding the perpetrators of the robbery. Passengers of the Kaiser Wilhelm der Grosse, who were landed at Southampton, told a representative of the Associated Press that they knew nothing of the matter until they read of it in the newspapers this morning. It was observed that there were no special precautions or searching when the passengers disembarked, though there was some comment caused by the delay of seven hours in landing the passengers at Cherbourg, where the steamer arrived at 11 o'clock Monday night. But, contrary to custom, the passengers were kept on board until 6 o'clock in the morning. The officers of the steamer explained that the tender would not come out. But this failed to satisfy the impatient passengers, who, however, were quite ignorant until they landed that their detention was due to the initial investigations consequent upon the theft and the precautions exercised at Cherbourg. But the fact that these precautions were not observed subsequently at Southampton was taken to indicate that the officials believe the conspiracy has its chief end on the continent. The passengers are inclined to believe that the robbery must have been accomplished by an individual exceptionally conversant with the arrangements of the steamship company, for not one of the cabin passengers, apparently, knew there was specie on board, much less where it was kept.

TAKEN FROM CASK NO. 4. New York, April 10 .- The robbery at sea of the specie room of the North German Lloyd liner Kaiser Wilhelm der Grosse seems a mysterious crime, Apparently there has been complete failure to locate either the missing gold bullion or the men who took it, although the search of passengers and ship at Bremen again this morning may furnish material for the investigations. The advice to Oelrichs & Company, agents for the company, came in German and on the point as to whether the specie room was broken open or entered by packing the lock admit of translation either way. The specie room of the Kaiser Wilhelm der Grosse is Iron-bound and almost as strong as a vault. The bars of gold were packed in oak casks bound with iron hoops. Thousands of dollars in gold were within the reach of the man who forced his way into the strong room, but only the sum named was taken. At the office of the North German Lloyd agents this morning the following statement was given to the Associated Press:
"Three bars of gold, valued at \$22,-

750, were taken from the specie room of the Kaiser Wilhelm der Grosse somewhere between here and Cherbourg. The bars were taken from cask No. 4, but we have no idea as to how the robbery was accomplished. Our advices are but brief and do not show how the room was entered. The gold was shipped by the National City bank of New York. We understand it was insured but the oversition of responsi-THEORY OF PARIS POLICE.

Paris, April 10.—Neither the Cher-bourg nor the Paris police have found any trace of the missing gold bars or of the thieves. Washington, April 10 .- The Japanese | has thus far proceeded in dealing with minister, Mr. Takahira, today received official advices from the foreign office at Tokio, entirely dispelling the glarming reports as to a Russo-Japanese rupture and showing that the Japanese government accepted the latest declaration of Russia on Manchuria with the same sense of satisfaction that it had been received within the United States. Mr. Takahira called at the state department and informed Secy Hay of the gratifying turn of events.

The position of Japan, as now defined in the highest official quarters, is prac-tically the same as that of the United States. A copy of the recent Russian communication was delivered to Japan at the same time it was given to this government, although the texts differ slightly, they are alike in all materia points. The Japanese government now trakes known that it accepts the dec-laration as made in entire good faith, and like the United States it is quite satisfied to leave the Manchurian question in its present status. The assur-ances given by Russia are of such a character that the Japanese authorities confidently look forward to a course of action which will remove the perpiex-ity and dangers in which the issue has been involved thus far. As the other powers already have indicated their acceptance of the Russian declaration, the course of Japan removes the last base possibility of division and appears to restore the harmonious concert which responsibility."
